\$4,500,000 Dividends have been paid regularly for the past seventeen years. Payable January 1st and July 1st. There is no better 7 per cent

If you are looking for a safe and permament investment we believe this 7 per cent stock will appeal to you. It is an old established business. That the Preferred Stock is amply well protected is shown from the fact that the net earnings available for dividends after the Federal tax and all other taxes were paid during the past four years have averaged nearly four times the dividends on the Preferred Stock outstanding. The Common Stockholders propose to give even greater protection to the Preferred Stock by leaving annually in the treasury a substantial part of the earnings of the Common Stock.

W. L. Douglas name is known throughout the world. The trade mark is a very valuable asset worth millions of dollars, and is the property of the stockholders. It is one of the most valuable trade marks in United States. Application will be made to have this stock listed upon the stock exchange.

This company owns and operates 107 W.L. Douglas shoe stores located in the large cities. W.L. Douglas shees are also sold by over 8000 shee dealers in the United States. During the past few years our shoes have been more extensively advertised than ever before. Stamping W.L. Douglas name and the retail price on the bottom of the aboes before they leave the factory has saved the wearers millions of dollars, and guarantees them the best shoes in style, comfort and service that can be recorded for the arion.

In the leading foreign countries a great demand for W. L. Douglas shoes has sprung up. Our domestic business has increased so that our sales have more than doubled in four years. In 1915 the sales were \$8,069,628.41 and in 1919 \$21,906,904.44. The past six month's business was at the rate of over \$24,000,000 per year. In common with other great businesses we need additional capital to meet the urgent requirements of increasing demestic and foreign trade. The new conditions of business also demand more capital. The ovet of labor and material has nearly doubled so that twice the amount of capital necessary under the old business conditions is now required.

You will make no mistake to order at once as many shares of this stock as you can afford to buy, price \$100.00 per share. If you care for more particulars fill out the coupon and mail at once.
